Cooking with Pressure

**FAST**
The contents of the pressure cooker cooks at a higher temperature than what can be achieved by a conventional boil — more heat means more speed. Pressure cooking is about twice as fast as conventional cooking (sometimes, faster!)

**HEALTHY**
Pressure cooking is one of the healthiest cooking methods. According to a study published in the Journal of Food Science, pressure cooking preserves 90-95% of vitamins. The extra speed and heat of pressure cooking practically flash-cooks vegetables, allowing them to retain more vitamins than boiling, (which only retains 40-75%), or even conventional steaming (75-90%).

**GREEN**
Pressure cookers require less energy/electricity to operate during the cooking process. Less heat and time translates to up to 70% energy savings in comparison to conventional cooking.

**EASY**
Pressure cooking isn’t complicated at all. Simply push a button to reach pressure and then easily release it. It’s really as easy as 1, 2, 3, and 4!

**CLEAN**
No more spill-overs in the oven or splatters on your stove-top. Pressure cooking contains all of the splatters that you would ordinarily experience when conventionally boiling food.

**SAFE**
Modern pressure cookers have additional safety systems to ensure that if one should fail, another will kick-in.

GINGER & BUTTERNUT SQUASH SOUP

By: Laura Pazzaglia
www.hippressurecooking.com

2 kg (4 lb) butternut squash
peeled, seeded, & cubed
1 sprig of sage
1 large onion, roughly chopped
1” (2 ½ cm) fresh ginger, peeled & roughly sliced
¼ tsp (1 mL) nutmeg
4 cups (1 L) vegetable stock
Olive oil
Salt & pepper (to taste)
½ cup (125 mL) toasted pumpkin or squash seeds, for garnish

SERVES 4-6
PREP TIME: 5 MINUTES
PRESSURE COOK: 10 MINUTES

1. Select [Sauté] to pre-heat the pressure cooker. When the word “Hot” appears on the display, add the onions, sage, salt, and pepper. Sauté until the onions are soft.
2. Scoot onions aside and add a handful of squash cubes to cover the bottom.
3. Let brown for about 5 minutes stirring infrequently. Next, add the rest of the squash, ginger, nutmeg, and stock.
4. Close and lock the lid of the Instant Pot®.
5. Select [Pressure Cook] or [Manual] and then use the [+ or -] buttons to set 10 minutes of pressure cooking time.
6. When time is up, open the lid using Quick Release (see below).
7. Remove the woody sage stem.
8. With an immersion blender, purée the contents of the pressure cooker.
9. Garnish with a few toasted pumpkin seeds.

INSTANT TIP: 3 Ways to Release the Pressure

QUICK RELEASE: Release pressure instantly, by pressing [Cancel] and then turning the steam release handle on the lid to “Venting” position.

NATURAL RELEASE: Continue cooking using the pressure cooker’s residual heat and steam, by pressing [Cancel] and waiting for the pressure to come down on its own and the lid to unlock—this will take about 20 minutes (or more if the pressure cooker is very full).

10-MINUTE NATURAL RELEASE: Let the pressure cooker go into “Keep Warm” mode and count up to 10 minutes. Then, press [Cancel] and position the steam release valve on the lid to the “Venting” position.
1. In the cold Instant Pot®, with the lid off, add the bacon. Select [Sauté] and then switch to ‘Less’ mode or ‘Low’ temperature.

2. When the bacon releases its fat and it begins to sizzle, add the onion, salt, and pepper.

3. Raise the heat by selecting [Cancel] and then [Sauté] on ‘High’ mode or ‘High’ temperature.

4. When the onions have softened, add the wine and scrape all of the brown delicious bits off the bottom of the inner pot to incorporate into your sauce. Let the wine evaporate almost completely and then add the diced potatoes, clam juice (if you do not have 2 cups (500 mL) of juice, compensate the rest with water), bay leaf, thyme, and cayenne pepper.

5. Close and lock the lid of the Instant Pot®. Select [Pressure Cook] or [Manual] and then adjust the [+] or [-] button to set 5 minutes of pressure cooking time.

6. When time is up, use Quick Release (see page 7). Once pressure has released, open the lid.

7. While pressure cooking, make a roux to thicken the chowder by blending equal amounts of butter and flour over low heat and stirring constantly with a small wooden spoon until blended thoroughly.

8. To the uncovered pressure cooker, add the roux, milk, cream, and strained clams. Select [Sauté] and simmer all of the ingredients in the inner pot for about 5 minutes or until thickened to the desired consistency.

9. Serve garnished with soup crackers or inside a bread bowl.
MINI-MEATBALL BROTH

By: Laura Pazzaglia
www.hippressurecooking.com

Miniature Meat Balls:
1 lb (500 g) ground veal
¼ cup (50 mL) ground Parmiggiano Reggiano
½ cup (125 mL) plain bread crumbs
1 egg, beaten
½ tsp (3 mL) salt
¼ tsp (1 mL) pepper

Vegetable Stock:
6 cups (1.5 L) water
1 celery stalk, halved
2 medium potatoes, whole
2 carrots, peeled
1 onion, halved
3 tomatoes, halved
2 tsp (10 mL) salt
2 tbsp (30 mL) olive oil
2 tbsp (30 mL) balsamic vinegar
8 oz (225 g) pastina

SERVES 4-6
PREP TIME: 10 MINUTES
PRESSURE COOK: 15 MINUTES

1. In a large mixing bowl, mix the veal, cheese, breadcrumbs, egg, salt, and pepper. Using a melonballer, dose out the right amount of meat mixture and make little meat balls. Make them smaller than you think you will need because they will almost double in size when pressure cooked. Meanwhile, make the vegetable stock by adding all of the vegetables, water and salt into the cooker.

2. Close and lock the lid. Set the valve to pressure cooking position. Select [Pressure Cook] or [Manual] and cook for 10 minutes at [High] pressure. When time is up, open the pressure cooker by using Quick Release (see page 7).

3. Lift out the veggies and gently add the miniature meat balls into the still hot vegetable broth.

4. Close and lock the lid. Set the steam release handle to ‘Sealing’ position. Select [Pressure Cook] or [Manual] and cook for 5 minutes on [High]. When time is up, open the pressure cooker by using Quick Release (see page 7).

5. Keep the contents to a boil by selecting [Sauté] and add the pastina. Boil the pastina in the meatball broth for the time indicated on the package (minus 1 minute) - the pastina will keep cooking while you serve the dish. When the pastina is 1 minute away from being cooked, turn off the heat and serve your miniature meatball soup!
BLACK BEAN SOUP

By: Jill Nussinow
www.theveggiequeen.com

1½ cups (375 mL) dry black beans, soaked overnight or all day
1 tbsp (15 mL) oil
1 cup (250 mL) onion, coarsely chopped
3 garlic cloves, minced
1 tbsp (15 mL) ground cumin
¼ tsp (1 mL) chipotle powder or smoked paprika
6 cups (1 ½ L) vegetable broth
1 large bay leaf
2 tsp (10 mL) fresh oregano leaves or 2 tbsp (30 mL) dried
½–2 tsp (3 - 10 mL) salt, to taste
Soy yogurt or sour cream
Cilantro, chopped for garnish

SERVES 4-6
PREP TIME: 5 MINUTES
PRESSURE COOK: 7 MINUTES

1. Drain the soaking liquid from the beans and set the beans aside.
2. Heat the oil in the Instant Pot® by selecting [Sauté]. Add the onion and sauté for 2 minutes. Add the garlic, cumin, and chipotle powder. Add the beans, broth, bay leaf, and oregano. Stir well.
3. Turn the heat up high. Lock the lid in place. Turn the steam valve to “sealed”. Select the [Manual] key and reduce the time to 7 minutes. When the 7 minutes is up, let the pressure come down naturally (Natural Release — see page 7).
4. Carefully remove the lid, tilting it away from you.
5. Remove the bay leaf.
6. At this point, you can either mash the beans with a potato masher, use an immersion blender, or keep the soup as is.
7. Add salt to taste.
8. Garnish with a dollop of soy yogurt or sour cream and a sprinkle of cilantro.

CHEF’S NOTE:
“I love the flavors in black bean soup. This recipe is quite simple and a case of ingredient synergy.” - Jill Nussinow
RED LENTIL CHILI

By: Chef AJ
www.eatunprocessed.com

1 lb (500 g) red lentils
8 cups (2 L) of water
2 x 14 ½ oz cans of salt-free diced tomatoes (fire roasted preferred)
1 x 6 oz can of salt-free tomato paste
10 oz of chopped onion (approximately one large)
1 lb (500 g) red bell pepper, (approximately 2 large)
3 oz of pitted dates (approximately 12 Deglet Noor or 6 Medjool)
8 cloves of garlic, finely minced
4 tbsp (60 mL) apple cider vinegar
1 ½ tbsp (23 mL) parsley flakes
1 ½ tbsp (23 mL) oregano
1 ½ tbsp (23 mL) salt-free chili powder
2 tsp (10 mL) smoked paprika
½ tsp (3 mL) chipotle powder (to taste)
½ tsp (3 mL) crushed red pepper flakes (to taste)

1. Blend the dates, garlic, red bell pepper and tomatoes in a blender until smooth.
2. Place all remaining ingredients in the Instant Pot® and cook on high pressure for 10 minutes.
3. Let pressure release naturally or enjoy immediately (Natural Release or Quick Release see page 7). Serve over a baked potato and sprinkle with some faux parmesan.

CHEF’S NOTE: Faux Parmesan Recipe

1 cup (250 mL) raw nuts or seeds (or a combination, such as: walnuts, almonds, sunflower seeds)
1 cup (250 mL) natural yeast
1 tbsp (15 mL) salt-free seasoning

In a food processor fitted with the “S” blade, or in a blender, combine all ingredients until a powdery texture is achieved. If you prefer a more chunky result, process less.
ITALIAN CANNELLINI & MINT SALAD

By: Laura Pazzaglia
www.hippressurecooking.com

1 cup (250 mL) dry cannellini beans, soaked
4 cups (1 L) water
1 garlic clove, smashed
1 bay laurel leaf
1 sprig fresh mint
1 dash vinegar
1 generous swirl of olive oil
Salt & pepper (to taste)

SERVES 4
PREP TIME: 1 MINUTE
PRESSURE COOK: 8 MINUTES

1. Add the soaked beans, water, garlic, and bay leaf to the Instant Pot®.
2. Close and lock the lid. Select [Pressure Cook] or [Manual] and then adjust the [+] or [-] button to set 8 minutes of pressure cooking time.
3. When time is up, open the lid using Natural Release (see page 7).
4. Strain the beans and mix with mint, vinegar, olive oil, salt, and pepper.

INSTANT TIP: Half Full for Beans & Grains
Never fill the Instant Pot® more than half-way with beans or grains and their cooking liquid — they need room to expand!

INSTANT TIP: Don’t Spray Foam - Go Natural
Whenever possible, use the Natural Release when pressure cooking beans and grains. These foods generate lots of foam when cooking, and releasing pressure through the steam release may cause the foam to splatter out.

If you’re in a hurry, use Quick Release but do it slowly and stop immediately when foam exits the steam release — then begin again after waiting 30 seconds.
CAULIFLOWER & CITRUS SALAD

By: Laura Pazzaglia
www.hippressurecooking.com

SERVES 2-4
PREP TIME: 5 MINUTES
PRESSURE COOK: 6 MINUTES

1 small cauliflower, cut into florets
1 small romanesco cauliflower, florets divided
1 lb (500 g) broccoli florets
1 cup (250 mL) water
2 seedless oranges, peeled & sliced thinly

Vinaigrette:
1 orange, zested & squeezed
4 anchovies
1 hot pepper (fresh if possible), sliced or chopped according to preference
1 tbsp (15 mL) of capers conserved in salt & un-rinsed
4 tbsp (60 mL) of extra virgin olive oil
Salt & pepper (to taste)

1. Add one cup of water to the inner pot of the pressure cooker and place the steam rack. Add the cauliflower and broccoli florets to the Instant Pot® inner pot.

2. Close and lock the lid. Select [Pressure Cook] or [Manual] and then adjust the [+/-] button to set 6 minutes of low pressure cooking time.

3. In the meantime, make the vinaigrette by combining the anchovies, hot pepper, capers, olive oil, salt, and pepper. When time is up, open the lid using Quick Release (see page 7).

4. Strain out the vegetables and mix with the vinaigrette and orange slices.

INSTANT TIP: Save the Nutritious Cooking Liquid

Vegetables release plenty of water when pressure cooked — this water is filled with vitamins and minerals too.

Save it and then use it in another recipe in place of stock.
CILANTRO LIME CHICKEN TACO SALAD

1. Prepare Cilantro Lime Dressing: In a blender, combine mayonnaise, buttermilk, salsa, cilantro, lime juice, garlic clove, garlic powder, onion powder, salt, pepper, and red pepper flakes. Pulse until well combined. Refrigerate for several hours or overnight.

2. Select [Sauté] and when hot, add oil and onion to Instant Pot®. Sauté onion for 3 minutes. Add chicken and sauté for 2 minutes. Add tomatoes, salt, cumin, and black pepper. Lock the lid in place. Select [High Pressure] and set 2 minutes cooking time.

3. When timer beeps, use a Quick Release (see page 7) to release the pressure. Remove the lid. Select [Sauté] and cook stirring frequently, until liquid has cooked off. Stir in black beans and cilantro.

4. Serve over lettuce topped with chicken, cilantro lime rice, cheese, avocado, crushed tortilla chips, and cilantro lime dressing.

By: Barbara Schieving
www.pressurecookingtoday.com

1-MINUTE QUINOA

By: Laura Pazzaglia
www.hippressurecooking.com

1 cup (250 mL) quinoa (any color), rinsed well
1 pinch of salt
1 ½ cups (375 mL) of water
1 lime, zested & squeezed
Seasonal vegetables

SERVES 4-6
PREP TIME: 10 MINUTES
PRESSURE COOK: 1 MINUTE

1. Rinse quinoa well under water until it runs clear (a few minutes) before cooking so that you can remove the "saponin", a natural insect repellent. It is not necessary to soak quinoa before cooking.

2. In the Instant Pot®, add the quinoa, lime zest, salt, and water.

3. Close and lock the lid. Select [Pressure Cook] or [Manual] and then use the [+ or ] buttons to set 1 minute of pressure cooking time.

4. When the time is up, open the pressure cooker using 10 Minute Natural Release (see page 7).

5. Mix with lime juice, seasoning, and with any additional salt to taste.

6. Serve at room temperature or chilled with seasonal vegetables.

INSTANT TIP: Measure the Grains

To keep your pressure cooked grains from getting mushy, pay very close attention to the liquid to grain ratios in the recipe — they should be measured exactly!

This can also be done without a measuring cup — just be sure to use the same glass or container to measure both the grain and the liquid.
1. In a 1 cup (250 mL) heat-proof measuring cup add dry porcini up to the ¾ mark. Then, pour the boiling water into the inner pot. Cover tightly and set aside.

2. Select [Sauté] to pre-heat the Instant Pot®. When the word “Hot” appears on the display add the butter and olive oil. Then, sauté the shallot until it begins to soften.

3. Add the fresh mushrooms and sauté until at least one side is golden brown.

4. Pour in the wine and let it evaporate completely. Then, add the porcini mushrooms and their soaking liquid, salt, pepper, and bay leaf.

5. Close and lock the lid. Select [Pressure Cook] or [Manual] and then use the [+] or [-] button to choose 12 minutes of pressure cooking time.

6. When time is up, open the pressure cooker using Quick Release (see page 7).

7. Remove and discard the bay leaf. Add the olive oil and purée the contents using an immersion blender.

8. Spread blend onto crackers or toast and serve.

NOT RE-FRIED BEANS

By: Laura Pazzaglia
www.hippressurecooking.com

1 tbsp (15 mL) vegetable oil
1 onion, chopped
1 bunch of cilantro (or parsley), stems & leaves divided & chopped
¼ tsp (1 mL) chipotle powder
½ tsp (2 mL) cumin
2 cups (500 mL) dry borlotti, pinto or kidney beans, soaked
2 cups (500 mL) water
1 tsp (5 mL) salt

SERVES 6-8
PREP TIME: 5 MINUTES
PRESSURE COOK: 10 MINUTES

1. Select [Sauté] to pre-heat the Instant Pot®. When the word “Hot” appears on the display add the oil and sauté the onion, cilantro stems, chipotle, and cumin until the onions begin to soften. Add the beans and water.

2. Close and lock the lid. Select [Pressure Cook] or [Manual] and then use the [+ or -] button to set 10 minutes of pressure cooking time.

3. When time is up, open the lid using Natural Release (see page 7).

4. Remove a heaping spoonful of beans (for garnish) and sprinkle the rest in the pressure cooker with salt. Mash using a potato masher to the desired consistency.

5. Serve sprinkled with whole beans, parsley, and a dollop of sour cream (optional).

INSTANT TIP: Forgot to Soak the Beans?

Get the same benefits of an overnight soak (less gas and better looking beans) by quickly pre-cooking the beans. Put rinsed dry beans in the Instant Pot®. For each cup of beans add 4 cups (1 L) of water and 1 tsp (5 mL) of salt. Pressure cook for 4 minutes and do not open the lid until the "keep warm" timer has reached 10 minutes. Strain and rinse the beans (discard the liquid). They may look a little wrinkled but can be used in recipes calling for "soaked" beans.

1 medium pepper (red or yellow), cut into strips
2 medium zucchinis, cut into rounds
1 onion, cut into thin wedges

SERVES 4-8
PREP TIME: 2 MINUTES
PRESSURE COOK: 20 MINUTES

INSTANT TIP: Save Time by Pressure Cooking

To make mashed potato, don’t boil potatoes in water for 50 minutes leaching nutrients into the water; steam them in Instant Pot® for just 15-20 minutes.

1. Remove the outer leaves and trim the stems of the washed brussel sprouts. Cut the largest ones in half to get them to a uniform size for even cooking.

2. Prepare the Instant Pot® by pouring in 1 cup (250 mL) of water, and adding the steamer basket. Put the sprouts in the basket.

3. Close and lock the lid. Turn the steam release handle to Sealing Position. Select [Pressure Cook] or [Manual] and adjust the [+]/[-] buttons to set 3 minutes of pressure cooking time.

4. When time is up, open the pressure cooker using Quick Release (page 6).

5. Move the sprouts to a serving dish and dress in olive oil, salt and pepper, prior to sprinkling with toasted pine nuts and pomegranate seeds.

6. Serve warm or room temperature.

INSTANT TIP: How do Smart Programs work?

Instant Pot® is built with an embedded microprocessor. The microprocessor carefully runs lab-tested algorithms to control the time, cooking pressure and temperature to ensure consistent cooking results. Users can customize these settings with the operations keys to control pressure level, +/- to adjust cooking time and a cancel button, allowing one to achieve their preferred cooking results.

SPICY PASTA BUTTERFLIES

2 tbsp (30 mL) olive oil
2 garlic cloves, smashed
2 fresh hot chili peppers, chopped
or 1 tsp (5 mL) of hot pepper flakes
1 pinch of oregano, dry
16 oz (500 g) farfalle or bow-tie pasta
2 cups (500 mL) tomato puree
3 cups (750 mL) water
2 tsp (10 mL) salt

SERVES 4-6
PREP TIME: 5 MINUTES
PRESSURE COOK: 6 MINUTES

1. In the cold (not-pre-heated) Instant Pot®, on low heat [Keep Warm] setting (without the lid), add two swirls of olive oil, the smashed garlic cloves, hot peppers/flakes, and oregano (grinding it between your fingers as you sprinkle it in the pan). Allow the ingredients to infuse into the oil at low heat until you hear the garlic cloves sizzle and turn lightly golden.

2. Pour in the pasta, the tomato puree, and just enough water to cover the farfalle pasta. It’s ok if a few points stick out here and there. Add the salt (do not omit this step since you would ordinarily add salt to the pasta cooking water). Stir everything together and flatten the pasta out in an even layer with your wooden spoon or spatula, to make sure as many farfalle or pasta are immersed as possible.

3. Close and lock the lid. Set the steam release handle to the Sealing Position. Select [Pressure] or [Manual] at [Low] pressure and adjust the [+] and [-] buttons to set for 6 minutes of cook time. When time is up, open the pressure cooker using Quick Release (see page 7).

4. Give the contents a stir and let the pasta sit for about a minute while you gather the bowls and utensils. The pasta is still cooking from the heat of the pressure cooker so don’t leave it longer than that.

5. Top each bowl with a small swirl of fresh extra virgin olive oil.

CHEF’S NOTE:

“You can halve this recipe, but don’t pressure cook less than half of this recipe, as it will not provide enough liquid for the cooker to reach and maintain pressure.” - Laura Pazzaglia

1 lb (500 g) asparagus
4 cups (1 L) water

1 medium red onion, chopped
2 cups (500 mL) arborio rice
¼ cup (50 mL) dry white wine
2 tsp (10 mL) salt
1 lemon wedge, squeezed
about ½ tsp (3 mL) of juice
1 tbsp (15 mL) extra virgin olive oil (garnish)

SERVES 4-6
PREP TIME: 10 MINUTES
PRESSURE COOK: 20 MINUTES

1. Trim the asparagus by removing the woody stems - wash them well and set aside. Slice the rest of the tender stems in rondels, setting aside the tips. To the Instant Pot® add the woody stems and water.

2. Close and lock the lid. Set the steam release handle to the Sealing Position. Select [Pressure Cook] or [Manual] and cook for 12 minutes at [High] pressure. When time is up, open the pressure cooker by using Natural Release (see page 7).

3. Lift out the woody stems and discard. Pour the cooking liquid into a heat-safe measuring cup and measure 4 cups (1 L) with a little extra (about ¼ cup or 50 mL). This is your microstock.

4. In the heated pressure cooker base, add the onion and olive oil and swish everything around until the onions have begun to soften. Add the rice and coat with the oil and onions (the rice will become slightly translucent), and then keep stirring until the kernels start drying and turning white again, about 2 minutes. Splash in the wine and stir until all of the wine has evaporated. Add the asparagus microstock, asparagus rondels and tips and salt. Mix everything gently scraping the base of the inner pot, to ensure the contents don’t stick to the bottom.

5. Close and lock the lid. Set the steam release handle to the Sealing Position. Select [Pressure] or [Manual] and cook for 6 minutes on [High] pressure. When time is up, open the pressure cooker by using Natural Release (see page 7).

6. Add a squeeze of lemon juice and mix well. Serve with a swirl of your best extra virgin olive oil.

4 cups (1 L) water
1 tbsp (15 mL) olive oil

EASY CHILI COLORADO
SMOTHERED BURRITOS

SERVES 10-12

PRESSURE COOK: 30 MINUTES

By: Barbara Schieving
www.pressurecookingtoday.com

3 lbs (1500 g) boneless beef rump roast, cubed
16 oz (475 mL) enchilada sauce, divided
2 beef bouillon cubes or 2 tbsp (30 mL) beef base
½ cup (125 mL) water
10-12 burrito-size flour tortillas
2 cups (500 mL) shredded cheese

1. Add beef, 1 cup (250 mL) enchilada sauce, bouillon, and water to the Instant Pot®.
2. Select [Pressure Cook] or [Manual] and set 30 minutes of cooking time. When beep sounds, turn off pressure cooker and use a 10 Minute Natural Release (see page 7). And then do a Quick Release to release pressure. When valve drops, carefully remove lid.
3. Put the tortilla on a rimmed baking tray lined with aluminum foil.
4. Add approximately ½ cup (125 mL) beef to the center of the tortilla, fold in edges, and roll up into a burrito. Repeat with remaining tortillas.
5. Top with enchilada sauce and shredded cheese. Broil until cheese is bubbling (approx. 2-4 minutes).

CHEF’S NOTE:
“Chili Colorado is a very popular, easy slow cooker recipe. The original recipe cooks for 7-8 hours in the slow cooker. The cook time in the pressure cooker is only 30 minutes. I used a rump roast because it’s leaner than chuck roast, but you could use chuck or even stew meat if you prefer. If you have time, you could sear the beef before you cook it in the enchilada sauce. You could even cook the roast whole and cut or shred it after it’s cooked, just be sure to increase the cooking time.

This recipe is an easy pressure cooker recipe, perfect for a busy night. The beef freezes well, so if I have leftovers, I like to freeze it in Ziploc bags in individual serving sizes for quick lunches too.” - Barbara Schieving

CHEF’S NOTE:

“The traditional Hawaiian Kālua Pork is a long process that involves wrapping a pig in banana leaves and burying it in a fire pit lined with stones where it smokes for hours until it’s tender and juicy. Of course, for most of us, that’s not very practical. Pork shoulder is an inexpensive cut of meat and Kālua pork is often served at church parties and family get togethers. My family loved this pressure cooker version of Kālua pork. I hope you’ll give this easy, delicious recipe a try.” - Barbara Schieving
1. Combine first 8 ingredients (through garlic), ¼ tsp (1 mL) of the salt, and ¼ tsp (1 mL) of the pepper in the inner pot of Instant Pot®.

5. Select [Sauté] and cook, stirring constantly, until mixture just starts to boil. Turn off pressure cooker. Stir in pineapple tidbits.

6. Pour into serving dishes and chill. Pudding will thicken as it cools.

7. Served topped with whipped cream, toasted coconut, and a maraschino cherry if desired.

**INSTANT TIP:** Only Use Arborio Rice

Arborio rice maintains a great firmness and creaminess when making rice pudding. For optimal results, do not substitute with white rice.
CRÈME BRÛLÉE

By: Laura Pazzaglia
www.hippressurecooking.com

2 cups (500 mL) fresh cream
6 egg yolks
5 tbsp (75 mL) white sugar
1 tbsp (15 mL) vanilla extract
4 tbsp (60 mL) raw (demarara) sugar for caramelizing

This recipe is for 6 ramekins, or for fun you can use espresso cups - this recipe will fill 10.

SERVES 6-10
PREP TIME: 35 MINUTES
PRESSURE COOK: 6-14 MINUTES

1. Prepare the Instant Pot® by adding 2 cups (500 mL) of water, and trivet (or steamer basket).

2. In a mixing bowl, add the egg yolks and sugar, whisk until the sugar is dissolved. Then, add
the cream and vanilla and whisk just enough to get everything mixed together well (do not
whip). Next, pour the mixture slowly through a strainer into a spouted container (it will make
pouring the mixture into the cups or ramekins easy).

3. Pour the mixture into ramekins, cover tightly with foil and arrange on steamer rack so that all
are sitting straight.

4. Close and lock the lid. Select [Pressure Cook] or [Manual] and then adjust the [+ ] or [- ]
buttons to set 9 minutes of pressure cooking time for ramekins and just 6 minutes for
espresso cups.

5. When time is up, open the pressure cooker using the Natural Release (see page 7).

6. Open the pressure cooker and carefully lift out the custards. Open the first and jiggle it a bit.
   It should be nearly solid, but not liquid (this means they have set - they will solidify further
   when chilled). If they are still very liquid, pressure cook for an additional 5 minutes with the
   same opening procedure noted above.

7. Remove the custards and leave to cool uncovered for about 30-45 minutes. Once the
custards are cooled, cover them in plastic wrap and place them in the refrigerator to chill for
3-4 hours or overnight.

8. Before serving, remove the custards from the refrigerator, sprinkle the top with a thin, even
layer of raw sugar. Then, either melt the sugar with a culinary torch or slide them under the
broiler in your oven to melt and caramelize the sugar.
RASPBERRY CHEESECAKE

By: Barbara Schieving
www.pressurecookingtoday.com

SERVES 8
PREP TIME: 20 MINUTES
PRESSURE COOK: 25 MINUTES

1 cup (250 mL) crushed Oreo cookie crumbs (12 Oreos)
2 tbsp (30 mL) butter, melted

Filling:
16 oz cream cheese (room temperature)
¼ cup (50 mL) sugar
½ cup (125 mL) seedless raspberry jam
¼ cup (50 mL) sour cream
1 tbsp (15 mL) all-purpose flour
2 eggs (room temperature)

Topping:
¾ cup (6 oz.) milk chocolate, finely chopped
½ cup (75 mL) heavy cream
Fresh raspberries, for decoration

1. Prepare a 7 inch spring-form pan by coating it with a non-stick spray. Line with parchment paper if desired. In a small bowl, combine the Oreo cookie crumbs and butter. Spread evenly in the bottom and 1 inch up the side of the pan. Place in the freezer for 10 minutes.

2. In a mixing bowl mix cream cheese and sugar at medium speed until smooth. Blend in jam, sour cream, and flour. Mix in eggs one at a time just until blended; don’t over mix. Pour batter into the spring-form pan on top of the crust.

3. Pour 1 cup (250 mL) of water into the stainless steel inner pot, and place the trivet in the bottom. Carefully center the filled pan on a foil sling and lower it into the inner pot. Fold the foil sling down so that it doesn’t interfere with closing the lid.

4. Lock the lid in place. Select [Pressure Cook] or [Manual] on [High] and then adjust the [+ ] or [- ] buttons to set for 25 minutes of cooking time. When beep sounds, turn off Instant Pot® use Natural Release (see page 7) for 10 minutes, and then do a Quick Release to release any remaining pressure. When valve drops carefully remove lid. Remove cheesecake and check the to see if the middle has set. If not, cook the cheesecake an additional 5 minutes. Use the corner of a paper towel to soak up any water on top of the cheesecake

5. Remove the spring-form pan to a wire rack to cool. When cheesecake is cooled, refrigerate covered with plastic wrap for at least 4 hours or overnight.

6. When cheesecake has chilled, prepare topping. Place half of the chocolate in a mixing bowl. Heat heavy cream on medium high heat until it comes to a boil. Remove from heat and immediately pour cream over chocolate and stir until chocolate is completely melted. Add remaining chocolate and stir until chocolate is completely melted. Cool until ganache is thickened but still thin enough to drip down the sides of the cheesecake.

7. Spoon chocolate ganache on top of the cheesecake, spreading to edges and letting the ganache drip down the sides. Decorate top with raspberries. Refrigerate until ready to serve.
RED WINE POACHED PEARS

1. Peel the pears but leave the stems attached. Pour the bottle of wine into the Instant Pot®. Add the bay, cloves, cinnamon, ginger, and sugar. Mix well to dissolve. Add the pears to the pressure cooker.

2. Close and lock the lid. Select [Pressure Cook] or [Manual] and then adjust the [+ or -] button to set 9 minutes of pressure cooking time.

3. When the time is up, open the pressure cooker using Quick Release (see page 7).

4. Pull out the pears carefully using tongs, pulling them from their stems. Set the pears aside and select [Sauté], without the top, to reduce the cooking liquid to about half.

5. Filter and then drizzle spiced wine syrup on pears. Decorate with herbs and serve room temperature or chilled.

SERVES 4-6
PREP TIME: 5 MINUTES
PRESSURE COOK: 9 MINUTES

1. Peel the pears but leave the stems attached. Pour the bottle of wine into the Instant Pot®. Add the bay, cloves, cinnamon, ginger, and sugar. Mix well to dissolve. Add the pears to the pressure cooker.

2. Close and lock the lid. Select [Pressure Cook] or [Manual] and then adjust the [+ or -] button to set 9 minutes of pressure cooking time.

3. When the time is up, open the pressure cooker using Quick Release (see page 7).

4. Pull out the pears carefully using tongs, pulling them from their stems. Set the pears aside and select [Sauté], without the top, to reduce the cooking liquid to about half.

5. Filter and then drizzle spiced wine syrup on pears. Decorate with herbs and serve room temperature or chilled.

INSTANT TIP: Steaming Fruit

When steaming fruit, use at least 2 cups (500 mL) of water and a free-standing vegetable steamer, wire mesh basket or a stainless steel bowl on a steam rack.

Use Quick Release (see page 7) to stop cooking.
The traditional Hawaiian/Kālua Pork is a long process that involves wrapping a pig in banana leaves and burying it in a fire pit lined with stones where it smokes for hours until it's tender and juicy. Of course, for most of us, that's not very practical. Pork shoulder is an inexpensive cut of meat and Kālua pork is often served at church parties and family get-togethers. My family loved this pressure cooker version of Kālua pork. I hope you'll give this easy, delicious recipe a try. — Barbara Schieving

LIMONCELLO RICOTTA CHEESECAKE-IN-A-JAR

By: Laura Pazzaglia
www.hippressurecooking.com

SERVES 4
PREP TIME: 15 MINUTES
PRESSURE COOK: 15-20 MIN

4 oz (115 g) biscotti
2 tbsp (30 mL) unsalted butter (half melted & half softened)
2 tbsp (30 mL) lemon zest, grated
6 oz (170 g) ricotta, drained (room temperature)
8 oz (225 g) cream cheese (room temperature)
⅓ cup (75 mL) sugar
¼ cup (50 mL) limoncello liqueur (or lemon juice)
1 tbsp (15 mL) vanilla extract (or 1 envelope of vanillin)
2 large eggs, beaten (room temperature)
1 hazelnut chocolate bar, for garnish

1. Begin your recipe about an hour before you think you mean to by pulling the eggs, ricotta, and cream cheese out of the refrigerator to bring them to room temperature. Prepare the Instant Pot® by adding 2 cups (500 mL) of water and the steam rack, and set aside.

2. Grab a square of softened butter and rub it around the bottom and edges of your jar(s) or heatproof dish. Set aside. In a small pan melt the butter. In the food chopper, crush the biscotti, pour in the melted butter and blend again one last time to incorporate. Press the crumbs with the back of your fingers or a spoon to the bottom of the jar, pan or form into a layer no thicker than ¼” or ½ cm. Place the jars in the refrigerator to solidify the crust while you move on to the next steps.

3. In a mixing bowl with a hand blender, or with a fork stirring vigorously, break-up and mix the ricotta. Add the cream cheese and sugar. A little at a time, add the limoncello, vanilla, and lemon zest. When everything is mixed together, add the beaten eggs. The result will be the consistency of a very runny pancake batter. Take the jars out of the refrigerator, and delicately pour the cheese mixture over the crust in- a soup ladle a soup ladle will reduce spillage. Cover the jar tightly with tin foil and lower it into the pressure cooker.

4. Close the lid and set the Steam Release Handle to Sealing Position. Select [Pressure Cook] or [Manual] and then adjust the [+][-] button to set 15-20 minutes of pressure cooking time (depending upon size of jar). When time is up, open the pressure cooker with the 10 Minute Natural Release (see page 7). When cooking time is up count 10 minutes of natural open time. Then, release the rest of the pressure using Quick Release (see page 7).

5. Delicately remove the jars and place on a cooling rack, trivet, or other raised platform that will allow the air to circulate around the jar. Remove the tinfoil and let it cool this way for about an hour. Then, close the jar and place in the fridge and let it chill thoroughly for at least 4 hours before serving. Attack a chocolate bar with the vegetable peeler to make hazelnut chocolate "splinters" to garnish the cakes before serving.
STUFFED PEACHES

By: Laura Pazzaglia
www.hippressurecooking.com

2 cups (500 mL) water
8 amaretto or gingersnap cookies, crumbled
2 tbsp (30 mL) almonds, chopped
2 tbsp (30 mL) butter
1 tsp (5 mL) lemon zest
3 firm peaches, halved & pitted
Vanilla ice cream

SERVES 6
PREP TIME: 10 MINUTES
PRESSURE COOK: 4 MINUTES

1. Prepare the Instant Pot® by adding 2 cups (500 mL) of water and the steam rack.
2. Combine the cookie crumbs, almonds, and lemon zest. Stuff the peaches and place on the steam rack (each peach with a pat of butter).
3. Close and lock the lid. Select [Pressure Cook] or [Manual] and then adjust the [+ ] or [- ] button to set 4 minutes of pressure cooking time.
4. When time is up, open the pressure cooker using Quick Release (see page 7).
5. Serve warm with a scoop of vanilla ice cream.

INSTANT TIP: Steam Cleaning Sealing Rings

The Instant Pot® sealing ring is made from silicone rubber, which is more durable than natural rubber base products. Silicone may pick up food scents during cooking.

To remove the smell, you can “steam clean” your Instant Pot® by adding 2 cups (500 mL) of water or white wine and some cut-up lemon rind, and running the [Steam] program for 2 minutes with the sealing ring in place. Then allow the sealing ring to air dry.

Alternatively, you may remove the sealing ring, and clean the ring within your dishwasher. High temperature and strong detergent will remove most smells.
VANILLA YOGURT

By: Maomao Mom
www.maomaomom.com

4 cups (1 L) 2% milk
½ cup (125 mL) vanilla yogurt
1 tbsp (15 mL) sugar

SERVES 6
PREP TIME: 10 MINUTES
KEEP WARM: 15 MINUTES

1. Bring milk to boil in a medium size non-stick pot on high heat (cool to near room temperature). Then add yogurt and sugar and stir to mix. Divide the mixture into 4 cups (1 L).

2. Take out your Instant Pot®, add 4 cups (1 L) of water to the inner pot. Close the lid and select [Keep Warm] for 15 minutes and then unplug. Let the pressure cooker (with lid on) stand for 10 hours.

3. Open the cover and take out yogurt, cover with plastic wrap and chill a few hours before serving.

INSTANT TIP: Making Yogurt is Easy & Fun!

Try experimenting with various toppings on your yogurt —honey, maple syrup, cinnamon, crushed nuts, homemade jam, chopped fruit, berries, raisins, or chocolate hazelnut spread. The possibilities are endless, use your imagination!

To make Greek yogurt, simply strain plain yogurt in the refrigerator for approximately 4-6 hours, depending on the desired thickness. The temperature is critical when making yogurt. If the milk is too hot, it will destroy the culture; too cold, the culture won’t grow properly.

Before making yogurt, ensure you have a good thermometer to check the temperature of the milk before adding the yogurt culture. It’s important that the yogurt culture is at room temperature to more easily blend with the milk.
As with conventional cooking, cooking with the Instant Pot® is full of personal choices, creativity, a lot of science, and little experimentation. No two people have exactly the same tastes, preferences of tenderness and texture of food. The purpose of the Cooking Time Tables is to provide you with a reference, however you are encouraged to experiment and find the time settings that best suit your personal preferences.

There are other factors that may affect the cooking time. Different cuts of meat and diverse types of rice, for example, may require different cooking times to yield the same tenderness or texture.

When cooking frozen food, there is no need to defrost the food in the microwave first. However, frozen food will prolong the pre-heating time and cooking time by a few minutes, depending on the amount of food.

The timing indicated within the Cooking Time Tables are based on the cooking pressure within the range of 10.15~11.6 psi.

### SEAFOOD & FISH

The cooking time for seafood is typically short. The best result is achieved with the original juice being retained in the food. Steaming is the ideal cooking method, however stewing the food will also produce great results.

When steaming seafood, you will need at least one 1 cup (250 mL) of water, and an ovenproof or steel bowl on a trivet. When seafood or fish are over-cooked, their texture becomes tough. Unless that's the intended result, you should control the cooking time precisely. Normally, you'll need to use the steam release handle to release the pressure and stop cooking as soon as the programmed cooking period is over. An alternative is to take the natural cooling time (7 – 10 minutes) into consideration.

**INSTANT TIP:** Use the Smart Programs

Instant Pot®’s built-in [Rice] and [Multigrain] Smart Programs provide the optimal method of cooking rice and grains.
There are a few things to be aware of when cooking dried beans and legumes:

- Dried beans double in volume and weight after soaking or cooking. To avoid overflow, please do not fill the inner pot more than half capacity to allow for expansion.
- When cooking dried beans, use enough liquid to cover the beans.

Beans and legumes are less likely to be over-cooked, but if they are undercooked the texture is typically unpleasant. Please consider the cooking time as the minimal time.

**INSTANT TIP: Save Time, Soak the Beans**

Although not strictly necessary, soaking the dried beans can speed up cooking significantly. Immerse the beans in 4 times their volume of water for 4-6 hours.
There are a few things to be aware of when cooking meat:

• Raw meat is perishable and should not be left at room temperature for more than 2 hours (or 1 hour if room temperature is above 32°C / 90°F). When using the [Delay Start] program, do not set time for more than 1-2 hours. We recommend to pre-cook the meat and select the automatic [Keep Warm] or [Warm] program to maintain the food at serving temperature.

• Do not try to thicken the sauce before cooking. Corn starch, flour or arrow-root may deposit on the bottom of the inner pot and block heat dissipation. As a result, the pressure cooker may overheat.

You may want to brown the meat by selecting the [Sauté] program to seal the juices before pressure cooking.

**INSTANT TIP:** Seasoning Beef—Try These On Your Next Meal

Beef: (approximately 500 g or 1 lb)

- 50 g (2 oz) butter, 2 cloves crushed garlic, 2 sprigs fresh thyme
- 50 g (2 oz) butter, 2 cloves crushed garlic, 2 sprigs fresh parsley
- 50 g (2 oz) butter, 2 tbsp (30 mL) fresh chives, 1 tbsp (15 mL) grainy mustard
- 1 tbsp (15 mL) olive oil, 2 sprigs fresh thyme, 50 g (2 oz) cooked bacon
When steaming vegetables, you will need 1 cup (250 mL) of water and an ovenproof or steel bowl on a trivet.

Due to short pressure keeping period, leaving the pressure cooker naturally cooling down without using the steam release will add some extra cooking time to the food. (Natural Release — see page 7).

When steaming fruit, you will need 1 cup (250 mL) of water and an ovenproof or steel bowl on a trivet.

Often times, fruit dish recipes have precise requirements of the fruits’ texture. Instead of leaving the pressure cooker naturally cooling down, you’ll need to open the pressure cooker using the Quick Release — to release the pressure and stop cooking (see page 7).

### INSTANT TIP: Steaming Fruit Preserves Vitamins & Minerals

Just like cooking vegetables, fresh or dried fruits are best steamed to preserve the texture and taste as well as vitamins and minerals. Steaming also retains the natural look of the fruit, essential to your fruit dish. Cook fruit of equal size and ripeness together.
